

ICCU BEDS
 TECHNICAL SPECIFICATION

LINE ITEM NO.	DESCRIPTION	QTY	UNIT OF MEASUREMENT	UNIT COST	TOTAL COST
1	INTENSIVE CARE UNIT BED	18	UNIT	200,000.00	3,600,000.00
	Specification:				
a	Split Side Rails				
b	Reduce Patient Entrapment Design				
c	Migration Guard to Prevent Movement During Articulation				
d	One Step Quick Siderail Release				
e	Quick Headboard Release Design				
f	Siderails articulates with the bed				
g	Easy to Grip side rails				
h	Easy to read Angle indicators in the Head Side Trails				
i	Patient operable controls				
j	Clearly illustrated icons for control				
k	Able to handle a cumulative load of 3.04 Million Kg.				
l	Easy access of Components for maintenance				
m	Electric Motors				
n	Certified 220 kg safe working load				
o	Steering castor				
p	Castors 150mm single band				
q	Controls integrated in siderails or pendant				
r	Bed Angles Head Section 0 to 65 degrees Thigh section 0 to 28 degrees foot Section -22 to -3 degrees Trendelenburg/ Reverse Trendelenburg -17 to +17 degrees				
s	Height adjustment 39 to 77 cm				
t	Slideguard sliding backrest up to 12 cm				
u	Protection class IPX4				
v	Certificates: IEC 60601-2:-52				
w	Inclusion: With IV Poles (2 IV Poles Per Bed)-Stainless				
x	Dimension: atleast 2230x1000x700 mm
